

Federal Savings & Loan Reports \$1 Million Gain

Another million dollar gain year for the Greencastle Federal Savings and Loan Association in 1966 was one of the highlights developed by Ernest H. Collins, its president, at the Annual Shareholders Meeting held Monday evening in the DePauw Union Building. Mr. Collins said, "In three of the last four years, the Association has shown a gain of over a million dollars per year, but the gain of this amount in 1966 was the sweetest of all because it was contrary to the national trend where the growth of Savings and Loan Associations showed a slow-down."

In his report to the membership, Mr. Collins showed that not only was 1966 an exceptional year for local Savings and Loan in its growth pattern, but the year was also distinguished as one in which the Association passed the ten million dollar mark; concerted to a Federal Charter; raised its earnings rate to 4 1/2 per cent compounded quarterly; and installed the modern computer accounting system. In detailing the various phases of the operation, the President showed:

1. The savings accounts increased over a million dollars to a new high total of \$9,536,600. These funds are the savings of over 3,000 thrift-minded savers.

2. The Association made loans during the year which totaled over two million dollars to help home owners and home builders. After repayment of existing loans, the Association realized a gain in loans of over \$800,000.

3. The new rate of 4 1/2 per cent paid to savers for the year, of course, was reflected in the new record of \$383,400 which was paid out to savers.

4. Even with the increased distribution in earnings, the Association set aside over \$88,000 for reserves. This brings the total reserve position to over \$910,000.

Mr. Collins pointed out that the college education loan program which was initiated last year was well received in 1966. While students at DePauw are receiving the largest number of loans, local students are being assisted with financing their education at five other universities around Indiana. Mr. Collins stated, "The Association feels that such loans are definitely an investment in the future of our country."

Optimism was expressed for the future of the Association in 1967. Continued good flow of savings dollars into Greencastle Federal Savings and Loan Association is anticipated as is improvement in the flow of home mortgage funds. It is expected that the mortgage lending will increase more rapidly in 1967 than it did in 1966.

The Association's By-Laws have been modified to provide for a five member Board of Directors. The Directors of the Association who were elected are Walter S. Ballard, Rexell A. Boyd, Chester C. Coan, Ernest H. Collins, and Norman J. Knights.

Perfect Answer

LONDON UPI — A man left a note reading "I'm on official business" on the windshield of his car Monday while visiting a government office.

When he returned, he found another note— and a parking ticket. The second note was signed by a policeman and read: "So am I."

Mrs. N. C. O'Hair returned home from the Mayo Clinic in Rochester, Minn.

Mrs. Robert Graham was hostess to the Century Club.

Mrs. Maude Friend was a patient in the Putnam County Hospital.

St. Paul's Study Club met with Mrs. Frank Dickie.

Sewer Project Tabled By City Councilmen

Sheriff Reports Jail Activity

Elbert Short, 37, Martinsville, was turned over to the Putnam County Sheriff's Department this morning by Morgan County authorities.

Short, according to Sheriff Bob Albright, is being charged with a break-in at Leo Cradick's on January 4. Ginseng valued at \$500 was stolen.

John Curtis, 23, was jailed by Sheriff Albright at 4:15 Monday afternoon on a warrant charging contributing to the delinquency of a minor.

Two runaway Ohio boys were also held in jail overnight by Sheriff Albright after they were turned over to him by State Trooper Ted Settle at 5 p. m. Monday.

Terry Lee Six, 16, Logan, O., and Terry Ogg, 19, Lancaster, O., were released in the custody of their parents this morning.

Commissioners Appoint Five

Claude Malayer was elected president of the Putnam County Commissioners for 1967 at a meeting of the county board Monday. Earl Huffman was elected vice president. Waldo E. Shoemaker is the other commissioner succeeding Victor Hurst.

Byron Gough was appointed to the Putnam County Planning Board to fill the unexpired term of David S. Hostetter.

Earl Huffman was also appointed to the board, representing the county commissioners. Mrs. Harry McCabe was re-appointed to the Putnam County Library Board for another four-year term.

Ralph Spencer was reappointed County Road Supervisor.

Ivan Leonard of Fillmore was appointed court house elevator operator to replace Mrs. Mae Keck.

Indiana Traffic Toll Now 24

By United Press International

A 17-year-old Frankfort boy was killed in a head-on crash between his car and one driven by his great-uncle in one of three Monday night deaths which raised Indiana's 1967 traffic fatality toll to at least 24 compared with 36 a year ago.

Thomas L. Knapp died in the wreck a mile west of Rossville on Indiana 26 late Monday night. The driver of the other car was Loyal L. Troxel, 62, Mulberry, whom police identified as the youth's uncle. Officers said Troxel apparently pulled to the left of the highway to turn off when the crash occurred. He was hurt only slightly.

Roy Henry, about 60, a resident of the Scott County Home, was injured fatally Monday night when he was hit by a pickup truck on U.S. 31 north of Scottsburg. Henry died early today in a Louisville hospital. He was struck by a vehicle driven by Jared C. Taylor, 60, Austin.

William Dunkin, 48, Indianapolis, was injured fatally Monday night when he was hit by a car as he crossed a busy Indianapolis street. Police arrested Wayne Burns, 25, Indianapolis on charges of involuntary manslaughter and reckless homicide.

Vandals Strike

BIRMINGHAM, England UPI — Within minutes of the opening of an anti-vandalism exhibition Monday, someone had stolen 800 badges reading: "I am lending a hand to stop the vandals."

First-Citizens Bank Holds Annual Meeting

The First-Citizens Bank and Trust Company held its annual meeting this morning. President Simpson Stoner reported to stockholders that deposits reached a new high in 1966, and that 1966 was one of the best in the long history of the friendly First-Citizens Bank and Trust Company.

Mr. Stoner also reported that both outstanding loans and discounts had reached a new all time high. The usual dividend was paid in both July and December with an extra dividend being paid at the close of the year. In his report Mr. Stoner thanked the stockholders for their interest and help in setting new records for the First. He also stated that it is the desire of the employees and officers of the bank to assist all customers in every possible way, and that it is the bank's desire to furnish the best banking service to the community that it is possible to give. It is the bank's intention to provide "Full Service Banking" of the very highest quality.

Directors were re-elected as follows:

Robert E. Crouch, J. W. Earnshaw, Lloyd L. Houck, Grafton J. Longden, Glenn H. Lyon, Simpson Stoner.

Immediately after the stockholders meeting, the Directors held an organization meeting and elected the following officers:

Simpson Stoner, President and Chairman of the Board; Elizabeth Ensign, Vice President; H. L. Williams, Vice President and Trust Officer; C. N. Phillips, Vice President; Gail W. Edwards, Vice President; Walter Frye, Jr., Vice President and Cashier; Juanita Murray, Assistant Cashier; Steve M. Deer, Assistant Cashier; Ronald Joe Ferguson, Assistant Cashier.

Jet Crash

BITBURG, Germany UPI — Two U. S. Air Force men escaped injury Monday when their disabled F4D jet fighter. The plane crashed in a wooded area near the Luxembourg border.

Two Runs Made

A grass fire resulted in city firemen being called to the Henry O'Neal home, 303 West Jacob Street, Monday afternoon.

At 7:25 Monday evening, firemen made a resuscitator run when the son of R.E. Savage Greencastle, Route 2, had trouble breathing. Oxygen was administered and he was taken to the Putnam County Hospital.

At the left is the hole punched into the brick wall to gain entry to the supply vault at the Russellville State Bank. On the right is the door leading into the supply

John Myers Becomes Member Of Congress

Yanks Seek To Trap Cong In Biggest Ground Assault

WASHINGTON — Congressman John T. Myers was sworn in as a member of the 90th Congress in traditional ceremonies Tuesday noon in the chambers of the House of Representatives.

Looking on as the 39 year old legislator took his oath of office were his wife, Carol, and their two daughters. The girls flew to Washington late Monday and will return to Covington in time for school Wednesday morning.

In remarks following the ceremony, Myers predicted the session could be "stormy" considering the tremendous problems facing the country at home and abroad. He said he is certain the members will approach the problems with serious consideration as individuals concerned about the future of the nation.

Noting the increase in the Republican minority, Myers said he anticipates the new Congress will not be as easily persuaded by President Johnson as was the last session. Myers encouraged residents of the 13 counties in the Seventh District to seek personal attention from his Washington office for any problems they may have with any part of the Federal Government.

"A man is sent to Washington by his Congressional District to reflect as accurately as possible the feelings and wishes of the constituents on legislative matters," Myers said. "He also must be representative before the Federal Government in any problems an individual, group, community, town or city may have. By the very fact his constituents have elected him, he is honor-bound to receive, consider, investigate and do everything he can for any person or group of persons coming to him for assistance," he said. Myers invited persons to write or visit his office in Room 1238 of the Langworth House Office Building.

Land Claimed In New Mexico

WASHINGTON UPI — Echoes of the long-forgotten Mexican War of 1845 passed through the State Department Monday.

Members of the "Pueblo Republica de San Joaquin del Rio de Chama" showed up to claim, by virtue of old Spanish land grants, some land in New Mexico their forebears owned before the war.

But State Department attorney Andrew Berman told them their claims were lost with the signing in 1848 of the Treaty of Guadalupe-Hidalgo ending the Mexican War. They left, the lawyer added, "with a note of dire warning about minority agitation..."

Now You Know

The cesium clock in the National Bureau of Standards has an accuracy of 3 parts in 10 billion, amounting to an error of 1 second every 100 years, according to General Time Corp.

Break-In At Russellville State Bank

No Showdown Seen On Steel From Johnson

WASHINGTON UPI — Government and industry sources said today they interpreted the Johnson administration's relatively mild reaction to steel and copper price increases as an indication no showdown was in the making.

They noted that Gardner Ackley, chairman of the President's Council of Economic Advisors, made no suggestion of government counteractions in his Monday statement for the administration denouncing the price increases.

And they added that the absence of an appeal to patriotism, a freely-used weapon in previous price-increase clashes, was further evidence the administration plans no all-out fight to get the new prices rolled back.

Ackley urged in his statement that other steel producers not follow the lead of Jones & Laughlin Steel Corp., which last week raised the price of tube steel products about 2.7 per cent. He added that at a time like this, price restraint "can contribute significantly to relieving inflationary pressures."

On copper, Ackley said that anyone interested in preventing inflation "will greatly regret" the decision by the nation's three largest copper companies to boost their prices from 36 to 38 cents a pound.

The three companies were Phelps Dodge Corp., which touched off the round of increases last week, Kennecott Copper Corp. and Anaconda Co.

A yegg or yeggs visited the Russellville State Bank during the night and a hole was punched through a concrete wall into the walk-in vault containing supplies.

Entrance to the building was gained through a rear door.

The break-in was discovered at 8:30 this morning by Richard Hoff, the bank cashier.

He immediately notified Sheriff Bob Albright and the State Police Post at Putnamville.

The vault in which the hole was punched connects with another vault containing bank deposits and other items.

A Daily Banner reporter was at the scene soon after 9 o'clock but police had no statements to make until a thorough investigation was conducted by them and bank personnel.

At 10:55, Sheriff Albright reported that an undetermined amount of money had been taken.

Mr. Hoff told The Banner by telephone at 12:45 today noon that "very little of the bank's money was missing." He could not comment at that time on boxes of customers in the vault. He did say that the FBI was assisting in the investigation.

Guard Cemetery

MEXICO CITY UPI — Special police guards were mounted at the Jewish cemetery here Monday following a new outbreak of swastika painting on walls and tombs.

More than 100 tombs were desecrated by large swastikas and various Spanish-language slogans.

SAIGON UPI — American troops were launched on the biggest ground operation of the war in attempt to rid the Communists once and for all from their Iron Triangle stronghold north of Saigon, U. S. military spokesmen said today.

Spokesmen said a multi-battalion force of U. S. infantry and armored cavalry troops began moving secretly into the jungles near Ben Cat Sunday and by today had surrounded vast areas from which the Viet Cong direct terrorism against Saigon.

U. S. spokesmen declined to say how many troops were involved in the battle but did confirm it was the largest of the war. A force of more than 25,000 American and Vietnamese soldiers was mounted last fall in Operation Attleboro, which then was described as the war's biggest campaign.

The campaign, known as Operation Cedar Falls, was launched following four days of intensive bombing raids on the area by giant B52 Stratofortresses. For security reasons, it was not announced until today.

Spokesmen said that 92 Viet Cong were killed in the first 36 hours of the maneuver. American casualties were described as light.

The assault force included several battalions from the U. S. 1st and 25th Infantry Divisions along with troops from the 196th Light Infantry Brigade and the 11th Armored Cavalry Regiment.

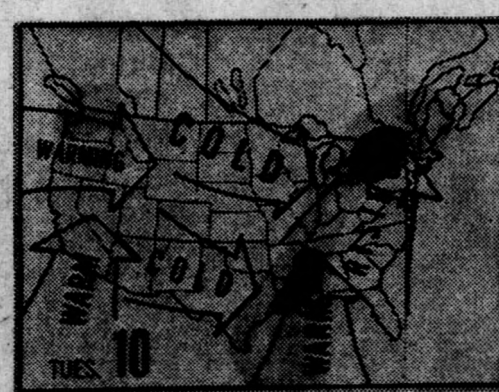

The campaign was first centered about 27 miles northwest of Saigon, near the French-owned Michelin Rubber Plantation where the Viet Cong have been holed up for years.

South Vietnamese troops operating with the Americans evacuated thousands of villagers from hamlets along the edge of the thick jungle area that is honeycombed with Communist-dug tunnels, ditches and bunkers. The refugees, carrying belongings on their backs and herding livestock, were moved into villages set up for them by government forces.

Joins Sales Staff

Thelma Thomas announces that Joe D. Fogle has joined the sales staff of Putnam Realty. Joe is an energetic young man and has been schooled in all areas of the real estate profession. He is married to the former Nancy Hammond and resides at Reelsville. He would appreciate hearing from his many friends and the people of the community concerning their real estate needs.

Congress, Nation To Hear Johnson Tonight

WASHINGTON UPI — President Johnson goes before the new 90th Congress — and the nation — tonight to set forth his plans for enlarging the Great Society in 1967 while waging war and seeking peace in Vietnam.

His State of the Union message was expected to answer — at last — the question if Americans were to be asked to pay higher taxes to finance the war, pay for domestic programs and ward off inflation.

Johnson's appearance before a joint session of the House and Senate was to be carried to the nation on television and radio and transmitted around the world by the Voice of America.

The President was scheduled to make his address at 9:30 p.m. EST.

Though he cloaked in characteristic silence the details of what he planned to recommend, Chief Executive signalled his intention to lay down a guns and butter program when he told newsmen last Dec. 31:

"I think we can, I think we must, and I think we will continue to do what is necessary at home and send our men abroad what they need to do their job."

He said he would tell Congress now — as he did a year ago — that despite the mounting costs of the conflict in Vietnam the United States must pursue its fight against poverty, ignorance and disease at home.

But congressional leaders — Democratic as well as Republican — already have hoisted goliath warnings.

And GOP leaders Everett M. Dirksen of the Senate and Gerald R. Ford of the House scheduled a news conference to answer Johnson's speech 30 minutes after it ends.

They were expected to call for a long hard look at Johnson's domestic proposals — and the 90th Congress, with an increased Republican membership again linking forces with conservative Southern Democrats, was likely to heed that call.

Confronted by cautionary signs not only from those quarters but from Senate Democratic Leader Mike Mansfield as well, Johnson has been faced on the other hand by demands from liberal lawmakers and civil rights leaders that he make giant strides forward in his embattled poverty and urban development programs.

Against forecasts of a budget that will total between \$135 billion and \$140 billion for the 1968 fiscal year starting next July 1, Johnson will be hard put to meet the liberal demands. But he also indicated he would not yield to the cutbacks demanded by others, despite his own yearning to cut federal spending to the bone.

Obituaries

Rites Wednesday For Irene Carr

Mrs. Irene Crooks Carr, 50, Anderson, died Sunday at St. John's Hospital in Anderson from injuries suffered in an auto accident on January 5th.

Mrs. Carr was born in Greencastle, January 10, 1916, the daughter of Charles and Daisy Byrd Crooks.

She was employed at Delco-Remy Co. of Anderson, and was a member of the First Methodist Church and Order of Eastern Star of Anderson.

Survivors are: her husband, William E. Carr, Sr.; one daughter, Carolyn Bailey, Anderson; one son, William E. Carr, Jr., Kokomo; and her mother, Daisy Crooks, Marion.

Funeral services will be held Wednesday at 1:30 p.m. at the Baker Funeral Home in Anderson, with burial in Anderson.

Morning Musicals will meet Wednesday at 9:45 a.m. with Mrs. Peter Hill, 302 Greenwood Avenue. Mrs. Herman Berg will present some of her string pupils in a string group performance.

Birthdays
Ricky Alan Nichols, son of Mr. and Mrs. Clifford Nichols, R. 1, Fillmore, 11 years old today, January 10th.
Tony Eugene Stone, 14 years January 9th.

Israel Claims Tank Victory

TIBERIAS, Israel UPI — Israel today claimed it won Monday's first tank battle in renewed border clashes with Syria and hoped its use of armored strength would halt the series of frontier incidents.

Syrian and Israeli troops backed by tanks kept battle alert along their hotly contested 48-mile border. Israel said the situation was "grave."

In a letter to the U.N. Security Council in New York, Israel declared the "serious intensification of Syrian acts of aggression along the border... have created a grave situation." The protest letter—Israel's second to the Security Council in 24 hours—did not request a council meeting.

Monday's border fight, the sixth since Jan. 1, turned into a full-scale tank battle at Tawfic, south of the Sea of Galilee.

Israel said the Syrian tanks opened fire around noon on an Israeli tractor working in fields near the demilitarized zone. Damascus Radio said Israeli tanks fired first on Syrian farmers.

Israeli officials said they hoped the use of tanks by Israel Monday would discourage Syria against further assaults.

Tensions along Israel's northern border with Syria mounted recently when farmers on both sides of the demilitarized zone stepped up agricultural activities. Both sides have admitted firing warning shots at tractors venturing too close to, or into, the demilitarized zone.

Baker Evidence Is Introduced

WASHINGTON UPI — The government began presenting its case today against Robert G. (Bobby) Baker, the one-time Senate cloakroom confidante who stands accused of fraud, theft and income tax evasion in the side business dealings that made him a paper fortune.

On hand to hear the Baker story in federal court were six men and six women who will spend probably the next 2½ months isolated together in a jury "lock-up" until the trial is over.

The jury members, along with six alternates, were sworn in late Monday after they had undergone intensive questioning by federal Judge Oliver Gasch, who ordered them sequestered to prevent any undue influence through news coverage of Washington's most potent political case in decades.

Eleven of the jurors are government workers. The twelfth is a retired federal employee.

IRS Questions And Answers

Question-and-Answer
Column No. 67-1

This column of questions and answers on federal tax matters is provided by the local office of the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q.—When will I get my tax forms in the mail?

A.—Distribution of the 1966 tax forms should be completed early in January.

Forms will also be available at IRS offices as well as many banks and post offices.

Q.—Is a Social Security pension taxable?

A.—No, it is not.

Q.—I worked last summer to earn money for college but made less than \$600. How can I get back what was withheld from my pay for income tax?

A.—File an income tax return to obtain a refund of any income tax which was withheld from your wages.

The card Form 1040A may be the best, as well as the easiest, for you to use. Don't forget to put your Social Security number on the return and attach your W-2 Form. The W-2 shows how much was withheld.

Q.—Has there been any change in the income tax rates for 1966?

A.—No. An individual's income for 1966 is taxed at the same rates in effect the preceding year.

Q.—When can I expect to get my W-2 from my employer?

A.—Employers are required to issue Form W-2 by the end of January but many do so earlier.

Q.—Can anyone use the figures for state gas tax deductions that are given in the 1040 instruction booklet?

A.—These figures are provided as a convenience for those taxpayers who deduct state gasoline tax when they itemize deductions. If you are entitled to claim this deduction then you may use the table instead of doing the calculations yourself.

Q.—If my wife and I file separately instead of jointly, can one itemize while the other uses the standard deduction?

A.—No. Married couples filing separate returns must handle their expenses the same way. If one itemizes the other must too.

Married couples filing separately must also take the same type of standard deduction. If one takes the minimum standard deduction they both must take it.

Q.—Are you going to offer tax assistance over the phone again this year?

A.—Yes. Check the local phone directory for the number to call.

Q.—Does the law now require me to file my return with an IRS service center?

A.—A new law authorizes the Secretary of Treasury to make such a request but it will not be required for 1966 returns. Check your 1040 instructions for the address of the office to which tax returns are to be sent.

Note that in some states, taxpayers are offered the option of mailing returns calling for a refund to a service center. Even in these states this is not a requirement but offered as a means to help speed up refunds and reduce processing costs.

Q.—How does the minimum standard deduction work?

A.—The deduction amounts to \$200 plus \$100 for each exemption taken on the return including those for age and blindness. For married couples filing separately, the deduction is \$100 plus \$100 for each exemption. The maximum that may be claimed by those using this deduction is \$1,000 but it is limited to \$500

for 1966?

A.—No. An individual's income for 1966 is taxed at the same rates in effect the preceding year.

Q.—When can I expect to get my W-2 from my employer?

A.—Employers are required to issue Form W-2 by the end of January but many do so earlier.

Q.—Can anyone use the figures for state gas tax deductions that are given in the 1040 instruction booklet?

A.—These figures are provided as a convenience for those taxpayers who deduct state gasoline tax when they itemize deductions. If you are entitled to claim this deduction then you may use the table instead of doing the calculations yourself.

Q.—If my wife and I file separately instead of jointly, can one itemize while the other uses the standard deduction?

A.—No. Married couples filing separate returns must handle their expenses the same way. If one itemizes the other must too.

Married couples filing separately must also take the same type of standard deduction. If one takes the minimum standard deduction they both must take it.

Q.—Are you going to offer tax assistance over the phone again this year?

A.—Yes. Check the local phone directory for the number to call.

Q.—Does the law now require me to file my return with an IRS service center?

A.—A new law authorizes the Secretary of Treasury to make such a request but it will not be required for 1966 returns. Check your 1040 instructions for the address of the office to which tax returns are to be sent.

Note that in some states, taxpayers are offered the option of mailing returns calling for a refund to a service center. Even in these states this is not a requirement but offered as a means to help speed up refunds and reduce processing costs.

Q.—How does the minimum standard deduction work?

A.—The deduction amounts to \$200 plus \$100 for each exemption taken on the return including those for age and blindness. For married couples filing separately, the deduction is \$100 plus \$100 for each exemption. The maximum that may be claimed by those using this deduction is \$1,000 but it is limited to \$500

for 1966?

A.—No. An individual's income for 1966 is taxed at the same rates in effect the preceding year.

Q.—When can I expect to get my W-2 from my employer?

A.—Employers are required to issue Form W-2 by the end of January but many do so earlier.

Q.—Can anyone use the figures for state gas tax deductions that are given in the 1040 instruction booklet?

A.—These figures are provided as a convenience for those taxpayers who deduct state gasoline tax when they itemize deductions. If you are entitled to claim this deduction then you may use the table instead of doing the calculations yourself.

Q.—If my wife and I file separately instead of jointly, can one itemize while the other uses the standard deduction?

A.—No. Married couples filing separate returns must handle their expenses the same way. If one itemizes the other must too.

Married couples filing separately must also take the same type of standard deduction. If one takes the minimum standard deduction they both must take it.

Q.—Are you going to offer tax assistance over the phone again this year?

A.—Yes. Check the local phone directory for the number to call.

Q.—Does the law now require me to file my return with an IRS service center?

A.—A new law authorizes the Secretary of Treasury to make such a request but it will not be required for 1966 returns. Check your 1040 instructions for the address of the office to which tax returns are to be sent.

Note that in some states, taxpayers are offered the option of mailing returns calling for a refund to a service center. Even in these states this is not a requirement but offered as a means to help speed up refunds and reduce processing costs.

Q.—How does the minimum standard deduction work?

A.—The deduction amounts to \$200 plus \$100 for each exemption taken on the return including those for age and blindness. For married couples filing separately, the deduction is \$100 plus \$100 for each exemption. The maximum that may be claimed by those using this deduction is \$1,000 but it is limited to \$500

for 1966?

A.—No. An individual's income for 1966 is taxed at the same rates in effect the preceding year.

Q.—When can I expect to get my W-2 from my employer?

A.—Employers are required to issue Form W-2 by the end of January but many do so earlier.

Q.—Can anyone use the figures for state gas tax deductions that are given in the 1040 instruction booklet?

A.—These figures are provided as a convenience for those taxpayers who deduct state gasoline tax when they itemize deductions. If you are entitled to claim this deduction then you may use the table instead of doing the calculations yourself.

Q.—If my wife and I file separately instead of jointly, can one itemize while the other uses the standard deduction?

A.—No. Married couples filing separate returns must handle their expenses the same way. If one itemizes the other must too.

Married couples filing separately must also take the same type of standard deduction. If one takes the minimum standard deduction they both must take it.

Q.—Are you going to offer tax assistance over the phone again this year?

A Woman's View

By Gay Pauley
NEW YORK UPI—The millinery industry wants the salute to read "hats on" instead of "hats off."

Its grand design for putting hats back on bare-headed females includes new, bold colors, new lightweight materials, new shapes or new versions of familiar ones, more accent on young looking chapeaux, and hats that pack readily.

The time was when the white hat was the tradition of spring. It's still very much on the scene, but colors like bright green, orange, yellow, clear pinks, and the range of blue-green have moved in. Add on splashes of patterns in bands or brim linings.

Sally Victor, a veteran of the millinery business and a favorite designer of first ladies, shows white, for instance, in her "Honda," a tam-cap shape in white felt with softly crushed crown and its narrow brim faced in red.

Miss Victor was one of a large group of milliners who this week showed spring hats for all ages from girl to grandmother. The occasion: The Millinery Institute of America's semi-annual show for visiting fashion reporters.

The institute's presentation kicked off the second week of fashion shows by leading New York dress, coat, suit and accessories manufacturers. Sponsor of the first week was the New York Couture Business Council. Now, through Jan. 13, shows will be by members of the American Designers Group.

Families Urged To Apply For Food Stamp Program

Needy persons in Putnam County are being urged to apply to the Putnam County Welfare Department for food assistance under the U.S. Department of Agriculture's Food Stamp Program for low-income families.

Applications are now being taken by the Putnam County Food Stamp Office, Monday through Friday from 8:30 to 12:00 noon and 1:00 to 3:30 p.m.

The Food Stamp Program is administered jointly in Indiana by the Putnam County Welfare Department and the United States Department of Agriculture's Consumer and Marketing Service.

The Putnam County Welfare Department points out that families do not have to be receiving welfare assistance to be eligible for food stamp help. Food coupons will be issued to families determined by the welfare department to be in need of food assistance. This includes a number of persons in the "Senior Citizen" group.

Many persons who, after retirement, are forced to live on reduced incomes, are often eligible to take part in the Food Stamp Program.

Other low-income families also may receive food coupons provided their family income or amount of liquid assets does not exceed specified amounts. The amount of income permitted to such families is worked out by the Putnam County Welfare Department with the Consumer and Marketing Service.

The Putnam County Welfare Department is responsible for interviews and certification of eligible needy families in Putnam County and for issuing the coupons to participating families. Authorization of food merchants — both retail and wholesale — is handled by the Consumer and Marketing Service.

The Food Stamp Program has two basic purposes — safeguarding the health of the nation's low-income families through better nutrition, and increasing the flow of food from the nation's farms through normal trade channels.

MOSCOW AGAIN—A smiling Llewellyn E. Thompson signs his commission at the State Department in Washington after being sworn in as ambassador to Moscow—again. He served in post 1957-62.

Foreign News Commentary

(By PHIL NEWSOM)

Pakistan has maintained a discreet silence amid the jubilation of other friendly quarters over Communist China's latest test of a nuclear device. So far, neither government officials nor the nation's press have uttered a word about it. But observers say it would be a mistake to interpret possible ill winds in the air between Peking and Rawalpindi. Rather, they point out, the Chinese explosion came at a time when Pakistan has before the United Nations a proposal to convince non-nuclear powers to condemn further nuclear proliferation.

Morally, Pakistan can't very well preach non-proliferation and rejoice in Peking's explosion at the same time. Privately, however, Pakistan does rejoice because it indicates the growing might of what officials here believe is the only power in the world likely to come to Pakistan's aid in a war with India.

Difficult days may lie ahead for basic industries in the European Common Market. Both the coal and steel industries in the six-member countries are holding record stocks. Production will have to be pulled back and unemployment figures are expected to shoot up sharply in coming months. But Common Market executives feel this drastic action is necessary to reduce stocks which have been dragging prices downward and leading market producers into cutthroat competition with each other.

Although Romania is the first Communist state to establish consular relations with Spain, the Soviet Union for several years has been showing an interest in normalizing relations. Soviet cultural and athletic groups have been permitted to visit Spain and the two countries have been doing some trade with each other through third country intermediaries. But no progress toward re-establishment of diplomatic relations may be expected soon. Generalissimo Francisco Franco insists on the return of Spanish state gold which went to Russia during the Civil War.

The Russians hold that the gold constituted payment for arms and food deliveries which the Russians made to the then legitimate Republican government.

Book Memorial To Mrs. Dunbar

The Greencastle - Putnam County Library has recently received the book, "Strangers in High Places," by Michael Frome. This book was presented to the library in memory of Mrs. Kate L. Dunbar, by the Fortnightly Club.

This is the story of the Great Smoky Mountains, a region which has had a colorful and poignant history from the days when it was a primeval wilderness and the home of the Cherokee Indians, through the stormy struggle with the devastating lumber companies, to the present.

Conservationists and many lovers of nature wanted to preserve this land in its natural beauty and make it into a national park. The struggle for this dream continued for forty years. In 1923, John D. Rockefeller, Jr., agreed to contribute \$5,000,000 to the project to make the area into the Great Smoky Mountain National Park.

This beautiful national sanctuary is a place where forests bloom, where the natural creatures roam in freedom, where natural herbs and flowers grow in luxuriant beauty.

Readers of this book will find stimulation and beauty and the urge to visit the Park in person.

FERN NEWS

By Mrs. Ernest Heber

New Year's Day dinner guests at the home of Mr. and Mrs. Ernest Heber were Mr. and Mrs. James Clark and son, Paul David and Mrs. Nadene Burks and children, Patty, Barbara, and Robbie.

Mrs. Ernest Heber, Mrs. Gilbert Wagie and Mrs. James Clark and son was at the Methodist Hospital at Indianapolis Tuesday for Mrs. Heber's check-up.

Ronnie and Donnie Warren of Manhattan Rd. spent Friday night with their grandparents, Mr. and Mrs. Don Heber.

Mr. A. P. Stoner suffered another heart attack at his home Wednesday afternoon he is feeling better, Mrs. Stoner is not too well.

Mr. and Mrs. William Perry and daughters were supper guests Friday evening of Mr. and Mrs. James Perry and sons at Greencastle.

Mr. and Mrs. Wayne Williams and family spent their Christmas vacation visiting relatives at Ft. Myers, Florida.

Patty and Robbie Burks spent Saturday afternoon visiting Billy and Sherry Aker.

Mr. and Mrs. James Lay of Indianapolis called Mr. and Mrs. Dennis Raymen and family Sunday.

Mrs. Nadene Burks and children, Barbara, Patty, and Robbie, Mr. and Mrs. James Clark and son, Paul David, Mr. and Mrs. William Perry and daughters, Ametra and Rebecca and Mrs. Jane Baker and daughter of Greencastle attended Church at Antioch Baptist Church and had dinner at the Double Decker Sunday.

Mrs. Dennis Raymer called on Mr. and Mrs. William Craig and children at Greencastle Saturday afternoon.

Mrs. Vivian Hutchison and sons Ronnie and Donnie Warren of Manhattan Rd. and Mrs. Larry McAllister and son Larry Jr., were Sunday dinner guests of Mr. and Mrs. Don Heber.

Dutch Princess Weds Commoner

The Hague UPI — Princess Margriet of Holland marries a Dutch commoner today without the turbulence that marked the unpopular weddings of her two older sisters.

Margriet, 23, has the blessing of her countrymen and the royal family to marry 28-year-old Pieter Van Vollehaven, a shy, studious and uncontroversial commoner.

Princess Irene drew criticism from Holland's Protestant majority in 1944 by converting to Roman Catholicism and marrying French-born Prince Carlos de Borbon-Parma, Carlist pretender to the Spanish throne.

There was even greater popular outcry when Crown Princess Beatrix decided to marry German diplomat Claus Von Amsberg, once reported to have been a member of the Hitler Youth and served in a German Army tank unit during World War II.

Beatrix and Von Amsberg were married in March 1965. Since then Amsberg's charm has gained him popularity in Holland.

Von Vollenhoven, who comes from a prosperous Dutch business family, studied law at Leyden University.

Court Acts On Fla. Reapportionment

WASHINGTON UPI — The Supreme Court Monday set aside the current reapportionment plan for Florida's Legislature on the ground that there is no justification for variations in population among the state's legislative districts.

The decision was by a 7 to 2 vote, with Justices John M. Harlan and Potter Stewart dissenting.

Speaking for the court majority, Justice Byron R. White said neither the state nor a U. S. District Court in Florida made any attention differences among legislative districts.

All the state suggested, White said, was that the plan "comes as close as 'practical' to complete population equality and that the state was attempting to follow congressional district lines."

"There was, however, no attempt to justify any particular deviations, even the larger ones, with respect to either of these considerations," the opinion went on.

State Youngsters Elect Angus Assn. Officers

Young Angus cattle enthusiasts from all over Indiana met in Indianapolis recently for the annual meeting and banquet of the Indiana Junior Angus Association. More than 100 persons attended the event which featured a talk by Larry Caine, director of public relations for the Chicago Stock Yards, and the election of officers for the coming year.

Elected president of the statewide organization was Mark Cronk, New Castle. He replaces retiring president Rich Owens, Carlos, Indiana. New 1st vice president is Sonnie Shafer, Huntington, who replaces Anne Patton, Earl Park, who served as acting president when Owens went into the service. Peggy Peek, Lynn, is 2nd vice president and Carolyn Torr, Greencastle is secretary-treasurer. Adult advisor to the group is Homer Owens, Jr., Carlos.

In other business the group made tentative plans for their

China At Brink Of Civil War

HONG KONG UPI — Violent clashes in major cities between rival factions in the Peking power struggle brought Red China to the gravest internal crisis in its 17 year history Monday with full-scale civil war a definite possibility.

Indications that the situation was headed for a showdown were seen in reports from various world capitals of the sudden departure of Chinese Communist diplomats for Peking. Envoys from London, Stockholm, Copenhagen and Helsinki were being joined by diplomats from Africa and Asian countries in the homeward-bound exodus.

Dispatches and eyewitness accounts from behind the Bamboo Curtain reported widespread disorders, work stoppages, tortures and atrocities inside China—the world's most populous nation with 700 million persons.

Thus far, the 3-million-man strong Red army appeared to be remaining aloof in the struggle between forces backing Communist party leader Mao Tse-tung and his heir-apparent, Defense Minister Lin Biao and opposing members of the party hierarchy headed by President Liu Shao-chi.

A new rock 'n' roll group, "The Daily Flash," will drum it up in a segment of video's "The Girl From U.N.C.L.E."

Jack Lemmon will star in "The Job Hunter" for his own Jalem Productions.

On The Farm Front

(By Carlo J. Salzano)

WASHINGTON UPI — Agriculture Department forecasters believe soybeans and soybean products will continue to be members of the foreign market "Billion Dollar Club" during 1966-67.

During the last fiscal year, the value of those exports topped the \$1 billion level for the first time, rising 13 per cent over the previous year.

The \$1.1 billion worth of soybean and soybean product exports in 1965-66 included \$966 million in regular commercial shipments.

The rest of the transactions involved sales for foreign currency, long-term dollar credits, barter and foreign donations.

Ninety per cent of America's soybean exports go to Western Europe, Japan and Canada, the Agriculture Department said in a new foreign service report.

Last year Spain emerged as a significant new outlet, taking 18 million bushels.

Japan is expected to be in the market for larger quantities of soybean meal and other feed concentrates, the department said. U.S. soybean exports to Japan in 1966-67 are expected to climb beyond the 62 million bushels shipped there last year.

The government's four year campaign against hog cholera is paying off.

The Agriculture Department reports that Jamaica has just announced that it will accept pork products from 11 states, including Alaska, Montana, Nevada, Utah and Vermont, which have been designed as free from hog cholera.

The other six, in phase four of the eradication program, are Idaho, Michigan, Oregon, Washington, Wisconsin and Wyoming.

Until now, U.S. pork exports to Jamaica have been severely restricted because of hog cholera, the department said. In 1964, for instance, U.S. hams and bacon made up only about 2 per cent of the \$1.2 million of these products imported into Jamaica.

Television In Review

By RICK DU BROW

HOLLYWOOD UPI — Television this week pays homage to the first anniversary of "Batman" in the way it knows best — imitation.

Starting tonight, the networks will introduce two superman spoofs — CBS-TV's "Mr. Terrific" and NBC-TV's "Captain Nice," both half-hour entries.

That ABC-TV's "Batman" has declined sharply in popularity since imaginative promotion got it off to a spectacular start doesn't seem to be of concern to the imitators.

Nor does it seem to bother them that two of this season's early cancellations were also spoofs—NBC-TV's "The Hero," about a fumbling television western idol, and CBS-TV's "Run, Buddy, Run," a takeoff on "The Fugitive" dealing with a young man fleeing gangsters.

This Friday, in fact, ABC-TV will offer another new half-hour spoof, "Rango," starring Tim Conway as an inept Texas Ranger.

Part of the continued network belief in this type of format is the steady ratings success of the James Bond takeoff, "Get Smart," which, in fact, has been a simply awful one-joke effort for quite some time.

At any rate, all of this week's programming activity heralds the start of the midseason replacement series.

On Tuesday, for instance, ABC-TV introduces an hour called "The Invaders," about colonists from a doomed planet who arrive on earth, looking like average citizens, and known to only one man, whom nobody believes.

On Wednesday, the same network begins its second weekly night of movies — bringing the

total to six — with "Ulysses," starring Kirk Douglas.

And on Thursday, NBC-TV brings back the old half-hour police show, "Dragnet," with Jack Webb in some new episodes.

The network news departments are also represented in the week's activity.

This evening, ABC-TV's daily "Peter Jennings and the News" program expands from 15 minutes to half an hour, as CBS-TV and NBC-TV already have done, and the regular contributors will include commentators Howard K. Smith and Edward P. Morgan. Mr. Jennings might be fascinated to know, by the way, that a press release from his network describes him as having an "electric personality."

And on Friday, NBC-TV's morning "Today" series marks its 15th anniversary with a special two-hours broadcast in which host Hugh Downs is joined by his two predecessors, Dave Garroway and John Chancellor. Mr. Chancellor now heads up the Voice of America.

This past Saturday night, NBC-TV presented another of its original two-hour "movies," an absurd, elongated television show called "How I Spent My Summer Vacation," about a bothersome young fellow, a loser, who tries to turn winner by uncovering the illegal activities of two wealthy international figures. If you can imagine how Ross Hunter might have produced "Mr. Arkadin" — well, there you have it. As the young man, Robert Wagner pulled off the stunt. I was rather sorry he did because I don't like nuances, no matter how noble the cause. Overdogs have much better manners.

Sheinwold on Bridge

Case History Tells
Grim Bridge Tragedy

By Alfred Sheinwold

The trouble with going out at night is that your children may be brought up by bad bridge players. A man may be handicapped all his life because a nurse taught him to take an ace whenever he got the chance.

Opening lead — K

Today's hand comes from the files of a Beverly Hills psychiatrist with the consent of the patient, now healthy and sane—if you can use those words in describing a television producer. Patient A. G. played the hand in his ace-grabbing days.

West led the king of spades, and our patient took the ace at once. He cashed the ace of diamonds and led another spade, hoping to ruff his third spade in dummy. East returned a trump, of course, and South eventually lost two spades and two clubs.

HEALTHY COMMENT

"I wouldn't play the hand that way anymore," a healthy A. G. comments. "I would just refuse to win the first trick with the ace of spades."

That assures the contract. If the defenders take two clubs and then lead a spade, South can ruff his third spade in dummy. If they lead a trump instead of a spade, South draws trumps and clears the ace of diamonds out of the way. Then he leads a spade to dummy's ace and discards the last spade on the king of diamonds.

"Playing an ace too quickly is a symptom of regressive hostility coupled with a tendency toward dandruff," comments the psychiatrist, closing his file on A. G.

A man can't be too careful.
DAILY QUESTION
As dealer, you hold: S-4 3 2; H-A K Q J 6 5 2; D-A; C-9 5. What do you say?

Answer: Bid one heart. The hand is too strong for a shut-out bid in first or second position.

tion. Your partner may easily have the right cards to assure a slam, but he will not bid if you open with four hearts. This risk is much smaller when partner has passed, and you may open with four hearts in third or fourth position.

WALL STREET CHATTER

NEW YORK UPI — Robert T. Allen of Shearson, Hammill & Co. says while the market is locked in the 780-820 trading range, a new bull market is not going to get much support from chartists or Dow theorists. The analyst feels it will take something more concrete than rumors to push the list above the 820 barrier.

Even without a tax increase, he says, the outlook for corporate earnings this year is not attractive and, as the year wears on, more and more economic indicators are expected to turn downward and with these conditions, it does not seem right yet for any sustained market upswing.

Leslie M. Pollack of Reynolds & Co. says a breakout above the 820 zone of the Dow Jones Industrial average would be viewed as a strong bullish signal by most technicians. The analyst is inclined to believe this feat will be accomplished sometime during the next few weeks.

James Dines & Co. believes firmly that a market move of major dimensions will follow the inconclusive series of neutral months of narrow trading and it is equally clear that the market is trying to form a base and a new bull market.

Snow in Monterrey

MONTERREY, Mexico UPI — The heaviest snowfall in years Monday paralyzed transportation over large areas of northeastern Mexico and threatened destruction of the huge Nuevo Leon state citrus grove.

Snow began falling during the night and at mid-morning was continuing with increasing intensity. At least three inches of snow was reported on many city streets.

Strangler On Trial In Boston

CAMBRIDGE, Mass. UPI — A mental patient who claims he is the Boston strangler goes on trial today on sex, assault and burglary charges.

Albert H. De Salvo, 35, was being defended in Superior Court by noted criminal lawyer F. Lee Bailey who in trial evidence plans to identify the crewcut onetime handyman as the Boston Strangler. The strangling of 13 women have been attributed to the Strangler but no one has been charged with the killings.

Bailey made clear he does not seek De Salvo's freedom but wants him committed for life to a mental institution where he can be given adequate and competent psychiatric care.

It was learned prior to the trial that Bailey was swamped with telephone calls from women fearful that the Boston Strangler would once again stalk the streets.

The beak-nosed and lid-garbed De Salvo, confined to Bridgewater State mental Hospital the past two years, allegedly confessed in a tape recording to Bailey that he was not only the Boston Strangler but that he also was "the Measuring Man" and "the Green Man" who raped 600 to 1,000 women.

The "Measuring Man" wore a green suit jacket or green coveralls in posing as a maintenance man to gain admission to women's homes.

The state has not prosecuted the self-styled Strangler on grounds the alleged tape recording would be tossed out as evidence in court.

The 13 women were strangled between June 14, 1962 and Jan. 4, 1964. On Nov. 6, 1964, De Salvo was committed to Bridgewater in connection with an unrelated offense.

South Texas Has 9-Inch Snowfall

CORPUS CHRISTI, Tex. UPI — The palm trees along Corpus Christi's yacht basin carried a coating of white, snowball fights broke out in the normally sub-tropical lower Rio Grande Valley and thousands of school children made their first snowmen.

In some areas of south Texas Monday's snowfall was the heaviest in nearly a half-century. As much as nine inches fell in some places.

The storm, which knifed on into Mexico and brought Monterrey its first measurable snow since weather records had been kept, left from one to seven inches of snow over thousands of square miles.

Freezing precipitation or cold rain continued today in Texas, the cold rain extending from east Texas in a broad belt to the south Atlantic coast but spared Florida.

Monterrey, Mexico, got its first snow since 1924-18 inches. The first snowfall in 19 years fell at San Luis Potosi, capital of the Mexican state of the same name and more than 100 miles south of the Tropic of Cancer.

Hundreds of automobiles were stranded along highways in northern Mexico. Airline flights were cancelled. Snow was reported in five Mexican states, from Tamaulipas to Durango and Zacatecas.

In Corpus Christi, where the tourist bureau's nationally-distributed publicity ends "... and it never snows," six inches of snow and slush closed the harbor bridge for several hours and brought hazardous driving warnings.

Corpus Christi police reported scores of traffic accidents and appealed to motorists to stay home.

Schools were dismissed early and hundreds of telephone circuits were out because of ice-laden lines.

A snowball fight broke out in downtown Corpus Christi. It blocked traffic and police who investigated were pelted by the snow-throwers.

Home Zoo

BATCOMBE, England UPI — Sure, said the policeman, he would be happy to look after the pets of Mrs. Josephine Curzon and Miss Marion Membury. Expecting to find a cat or dog in their seven room home, he found 75 dogs, 30 cats, eight hens, 12 ducks, two geese, five goats and one rabbit. He called the Royal SPCA and all 133 pets were taken to various kennels and shelters until the women returned home.

Rep. Powell Stripped of Committee Chairmanship

WASHINGTON UPI — Rep. Adam Clayton Powell, stripped of his committee chairmanship, faced the very real possibility today that a majority of his colleagues would deny him his seat in Congress.

Shortly after the new 90th Congress convened the House was to decide whether the nation's most powerful Negro politician should take his oath of office with the other 43 elected members.

Congress convened at noon EST.

The morning line on Powell's chances had it that he would be denied his seat—at least, temporarily—while a committee investigated the charges against him.

Lined up against Powell were

at least 150 Republicans, almost all the southern Democrats. On his side were Speaker John W. McCormack, D-Mass., and the rest of the northern Democrats.

This would provide that Powell keep his office and staff and get paid his \$30,000 annual salary, but not be permitted to vote while a select committee investigated charges against him.

But Van Deerin may not get a chance to offer his motion. The Democratic leadership was prepared to propose that Powell be investigated, but that he also be seated first.

If that move meets defeat, Republicans were set to introduce a similar motion with a time limit of five weeks specified for the investigation.

Chinese Power Struggle Moves Toward Climax

LONDON UPI — Chinese Communist party Chairman Mao Tse-tung still has a wide spread following among the masses in China but has lost the support of most of the ruling hierarchy, diplomatic reports said today. There were indications he is now only a front man for Defense Minister Lin Biao.

Diplomatic dispatches stressed that the situation in Red China remains "obscure and wholly unpredictable." But they said the struggle for power which has been in progress for many months past is fast moving towards a climax.

But there was no telling yet which way the new revolution is likely to head.

The Chinese leadership and the "instruments of power" are deeply divided. That applies apparently to some degree also to the army which is standing by and, probably, for this very reason has not been called upon by strong man Lin to intervene for fear that it may defect.

Lin, the successor designate to Mao, is said to be "running the show" in the name of Mao, with Mao himself strangely remaining in the background.

This has strengthened earlier reports that Mao has been reduced to a "front man" and to a mere symbol which is being used by Lin for his ends.

With the army an increasingly uncertain factor, Lin has been depending more and more on the Red Guards as the instrument designed to revolutionize the nation.

This plan appears to have backfired, at least in part. The Red Guards themselves have lately shown signs of a split, with pro and anti-Lin Piao factions.

Tentative assessments of the current suggestion suggested to day that as long as Mao is alive he is likely to retain the leadership, if only in name, but will not be able to heal the split. Other assessments do not rule out the possibility of the fall of Lin Piao, especially if the army splits wide open.

Good Clues

ROTTERDAM UPI — Police had little trouble discovering who broke into a dress shop Monday. It snowed while he was inside and police just followed the fresh tracks to the suspect's home.

Maddox Likely Ga. Governor

ATLANTA UPI — Democrat Lester Maddox, whose bids for public office have been rejected three times and stymied once by the people, was expected to be named governor of Georgia today by the legislature.

Maddox apparently was assured of more than enough votes from the overwhelmingly Democratic body to defeat Republican Hower (Bo) Callaway in a climax to a "no-decision" general election.

Voting by a joint meeting of the General Assembly, of which only 29 of 259 members are Republicans, was expected at about 2 p.m. EST after the official canvass of the Nov. 8 election. Two television networks NBC and ABC planned live coverage of the election session.

Callaway, seeking to become Georgia's first GOP governor since the Reconstruction, polled 450,387 votes to 448,259 for Maddox in the general election. But write-in votes for former Gov. Ellis Arnall, whom Maddox upset in the Democratic primary, kept either candidate from getting a majority.

A provision in the Georgia Constitution, upheld by federal and state courts, provides that the legislature must choose the governor in the event of a deadlock election.

Maddox, 51, who gained international attention several years ago by brandishing a pistol to keep Negroes from his fried chicken restaurant, had met with no success politically before he entered the governor's race. He had been defeated in attempts to become mayor of Atlanta twice and lieutenant governor once.

Thomas Jefferson's prescription for indigestion was a few miles' ride on a spirited horse.

Hunting Victim

MUNCIE UPI — Roscoe Reynolds, 62, Albany, former member of the Albany Town Board, was killed Monday by a shotgun charge in a hunting accident near Albany.

Reynolds was hunting rabbits

in a field adjoining the town dump. Authorities said he leaned his shotgun against a fence and it went off as he pulled the weapon over the fence.

Speaking of YOUR HEALTH...

By LESTER L. COLEMAN, M.D.

These Are Your Questions

IS THERE a condition, the opposite of anemia, in which there is too much blood rather than too little? What causes it? I assume that you are inquiring about a condition called polycythemia. This rare and complex condition is seen mostly in middle or late life and happens more frequently in men. Actually, it has no relationship either as a similarity or as a difference with anemia.

The cause is Dr. Coleman as yet unknown even though many scientists concentrate on its study. The diagnosis is readily made by the examination of the blood, bone marrow and spleen.

One of the treatments is the opposite of a transfusion, namely phlebotomy, by which blood is removed at regular intervals. Radioactive phosphorus is also used along with other isotopes. There are many other chemical agents which are used in this chronic disease in an effort to avoid its complications.

What can cause the loss of hair in an area about the size of half a dollar that comes and goes without any special reason?

This type of baldness is called alopecia areata. As the name implies it means baldness in a local area. The causes are many. A sensitivity to a new drug or an allergy may be responsible. High fevers, contagious diseases and hormone disturbances can cause a local area of baldness. Sometimes the cause is completely unknown and the hair begins to return without any form of treatment.

It is said that a severe emotional shock or deep-seated psychological disturbances may

be responsible for these isolated areas of baldness. In most instances the hair returns before the exact cause is found.

What is responsible for very profuse sweating, especially at night? Is there any special treatment for it?

For many years night sweats were always thought to mean a severe infection, especially tuberculosis. This has been responsible for much unnecessary fear.

It is true that tuberculosis can be a cause. However, there are many more less important reasons for night sweats. Excess heat and high humidity are the most likely reason.

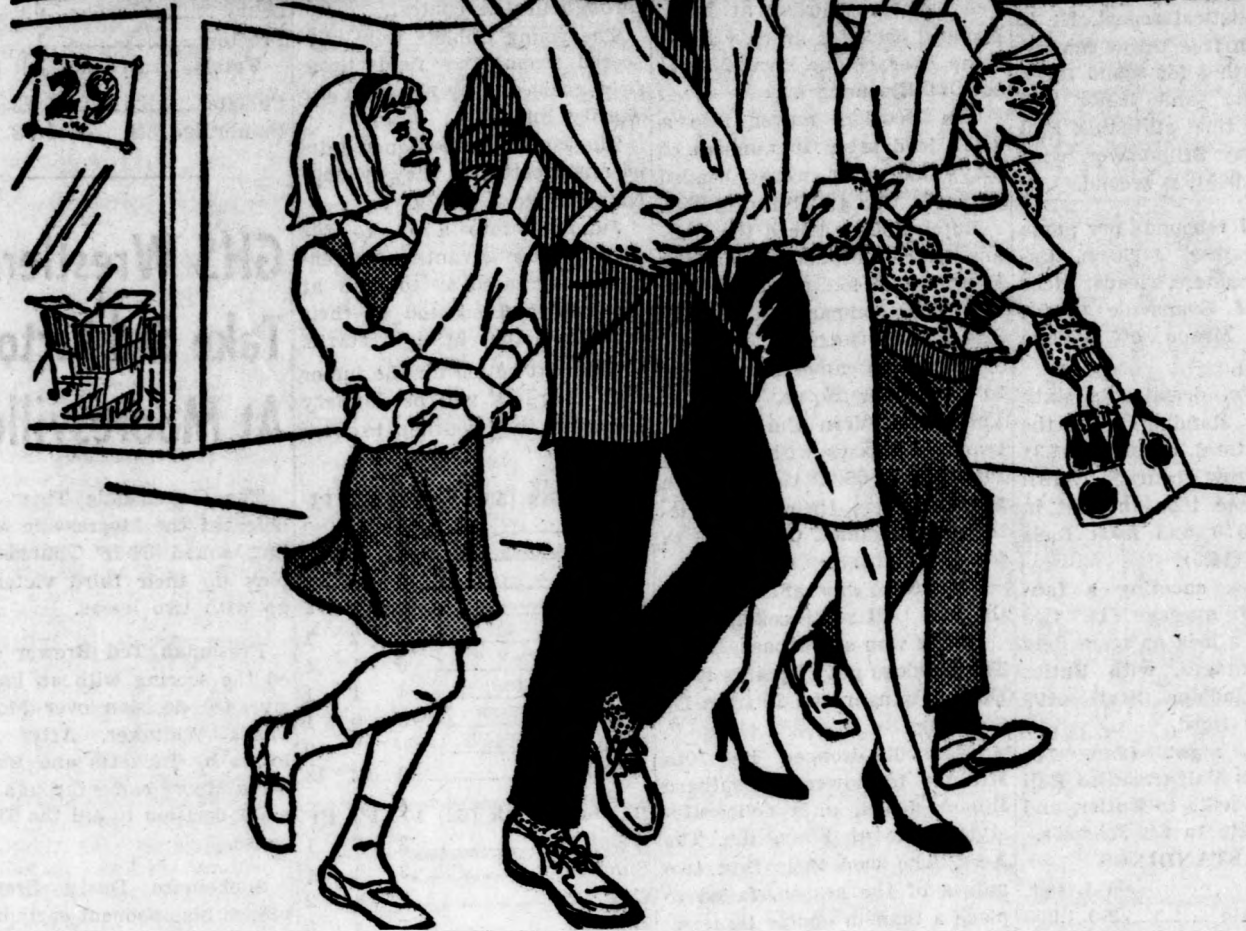

Certain drugs, infections and an overactive thyroid gland can cause a great deal of sweating at night. Heavy bed clothing, overeating and alcoholic drinks can also be responsible for this unpleasant condition.

There is virtually no physical condition that cannot in some way be explained by the emotions. They play a role in all diseases and can be responsible for a wide range of symptoms. Night sweats are no different and they too are often attributed to the emotions.

When the exact cause is found night sweats can be eliminated. Some drugs related to atropine have been used by some physicians to control sweating at night and during the day.

SPEAKING OF YOUR HEALTH — Friends should be friends and should not take on the role of doctor or psychiatrist.

Dr. Coleman welcomes letters from readers, and, while he cannot undertake to answer each one, he will use questions in his column whenever possible and when they are of general interest. Address your letters to Dr. Coleman in care of this newspaper.

SPORTS

SPUTTERINGS

By Walter L. Johns, Central Press Sports Editor

PITCHING, said the late venerable Connie Mack, is the big factor in baseball. And, in football, too.

It may well be that the Super Bowl game in Los Angeles Jan. 15 will be decided by the pitching—Bart Starr for the Packers and Len Dawson for the Chiefs.

The edge in statistics is with Dawson, but statistics are misleading and admittedly Starr is the best quarterback in all football and may be one of the best of all time.

SO MUCH depends on the protection the passer gets, and Starr gets that. Additionally, he is sharp, accurate and brainy and while Dawson has thrown more touchdown passes and piled up more yardage Starr has the edge in perfection. And, perfection, in football, is the real payoff.

Here's a comparison between the two quarterbacks over this season, and the statistics include the championship games for each:

	ATT	Comp	Yards	TDs	Int.	Avg. Gain
Dawson	308	175	2,691	28	10	8.73
Starr	279	175	2,522	18	3	9.04

As you can see, Starr has completed the same number of passes as has Dawson, but has thrown less. Of most importance is Starr's accuracy, for he has had only three passes intercepted while Dawson has thrown the ball into enemy hands 10 times.

COMPARISONS are difficult to end-result for the teams played against different opponents and the NFL certainly must be classed as the stronger loop of the two. The AFL, which has been improving rapidly, picked up many of the castoffs, including Dawson, who just didn't make it in the solid senior league.

While Dawson and Starr are fine passers, the receiving has to be good, too. Starr has some top-notch pass catchers in Jim Taylor, Carroll Dale and Boyd Dowler. Taylor is 6' even, Dale 6'2" and Dowler 6'5". Dawson's receivers are Otis Taylor, Chris Burford, and Fred Arbanas as the leaders. The Chiefs' group has more height for all three are 6'3" tall.

AS NOTED earlier, so much will depend on what protection the two passers get. The up-front group of each team is rugged, heavy and mobile. The Chiefs pack a bit more weight. Dawson maneuvers a bit better than Starr, piled up more rushing yardage on option plays than did Starr, but Starr is so perfect he has to be given the edge in overall ability and importance to his team.

Indiana State Leads ICC After 8 Days Hectic Action

With only eight games under its kingsize belt, the Indiana Collegiate Conference already has produced five eyebrow-lifting outcomes in what apparently is going to be a topsy-turvy basketball race.

Indiana State, this week's 2-0 front runner, is the only club that has escaped the unpredictable chase that reached a premature crescendo Saturday night, just eight days into the warfare.

The ICC's co-scoring leader, St. Joe's Ken Broussard, helped ignite the Pumas in their surprise, 84-73 win at Evansville; the league's top rebounder, Jim Jackson, aided DePauw in its narrow 92-91 upset win with Ball State; and the ICC's top shooter, Vern Curtis, and its other scoring leader, Dick Jones, of Valpo, helped duck Butler, 102-74.

As a result of Saturday's upsetting evening, the ICC has

four teams within a half-game of Indiana State. The soup could get thicker Wednesday night when Ball State goes to Indiana State and Butler travels to St. Joe.

Broussard, a 6-0 junior from Cincinnati, and Jones, a 5-11 senior from LaPorte, got the jump on ICC scorers with a 26.0 average. Ball State's Mack Sawyer is right behind at 24.7 and Butler's Ed Schilling is nearby with 24.0. Broussard moved to the top from fifth spot last year. Jones has jumped all the way from 20th to fifth spot last year. Jones has jumped all the way from 20th to fifth spot last year.

To prove last year's work was no fluke, Curtis, Jerry Newsum of Indiana State, and Schilling moved right back into the top three spots they held as last season's best shooters. But the order is jumbled this time. Curtis, third a year ago, is first with 750 (18-24), Newsum, last year's winner, is hitting .645 (20-31), and Schilling

is third with .600 (18-30).

Jones claims yet another department in the ICC's first weekly statistical report. He is out front in free throw marksmanship with 8 for 8 and 1.000. He won the same honor last year in the final statistics. Ball State's Terry Stillabower, with 10 for 11 (.909), is second.

With 16.7 rebounds per game in three games, Jackson, DePauw sophomore, leads Herb Williams of Evansville (16.0), and Rick Mason of Indiana State (14.5).

Ball State, despite its sixth place (1-2) standing, leads the league in total offense (913) and free throw accuracy (.773). Indiana State tops the list in defense (70.5) and least fouls committed (14.5).

Valparaiso, shooting a fantastic .570 average in two games, has a lock on team field goal percentages, with Butler .515 and Indiana State .496 second and third.

Saturday night (Jan. 14) action sends Valparaiso to Ball State, Evansville to Butler, and Indiana State to St. Joseph's.

ICC STANDINGS		
	W-L	Pct.
Indiana State	2-0	1.000
DePauw	2-1	.667
St. Joe	1-1	.500
Butler	1-1	.500
Valparaiso	1-1	.500
Ball State	1-2	.333
Evansville	0-2	.000

JUST SUPER FOR THEM—The Kansas City Chiefs, the AFL champs, go over films of their win over Buffalo in Kansas City as they prepare to depart for Long Beach, Calif., where they will practice before meeting the Green Bay Packers, the NFL king, in the Super Bowl in Los Angeles Jan. 15. Coach Hank Stram is standing. Smiling is Curtis McClinton.

Indiana Defeats Minnesota

Four Hoosier College quintets, including Indiana, came away with basketball victories Monday night, but Evansville continued in the chaos of its worst season in recent years.

Indiana, which lost its Big Ten opener Saturday at Iowa, bounced back for an easy 83-68 romp over league rival Minnesota at Bloomington.

The Hoosiers moved into a 23-12 lead after 10 minutes of play and never were headed again. It was 42-33 at the half.

Butch Joyner paced the Indiana attack with 23 points as the Hoosiers hit 46.7 per cent from the field, compared with only 32.4 for the Gophers.

Valparaiso came from behind to down Air Force, 68-66, at Valparaiso. Vern Curtis sank two free throws with 1:24 left to break a 66-66 tie and give the Crusaders their ninth victory in 11 games. Curtis hit 18 for the night.

Valparaiso was ranked 15th in the last UPI small-college poll. Butler won at Wabash, 89-71. The Bulldogs got 21 points from Doug Wininger and 20 from Ed Schilling.

Evansville dropped its 10th straight to powerful Southern Illinois, 55-41, in a deliberate-style game at Evansville. The Aces, who won their first two games of the season, failed to place a man in double figures.

Host Goshen made up an 18-point deficit in the final 12 minutes to edge Anderson, 82-81, on Art Mullett's fielder with 4 seconds left.

Hoosier College Conference action dominates tonight's play, with leader Indiana Central home to Manchester, Earlham at Hanover and Taylor at Franklin.

Leahy Nominated

HOUSTON UPI—The National Football Foundation honor court announced Monday the nomination of Frank Leahy of Notre Dame and four other former coaches as candidates for the National Football Hall of Fame.

The executive committee of the foundation will meet in New York late this month to make the final selections.

Besides Leahy the nominees were Bud Wilkinson of Oklahoma, the late Homer Norton of Texas A&M, Earle Neale of the Philadelphia Eagles and Lawrence Shaw of Santa Clara.

Frosh Cubs Lose to Pointers

The Greencastle Freshman squad suffered their second defeat of the season as the Bainbridge Pointers downed the Cublets, 62-50.

The Pointers jumped into an early 16 to 10 first quarter edge and continued to hold an eight to ten point advantage throughout the contest.

The young Cublets were outscored from the field three field goals and by six from the charity line.

The eighth grade squad fared much better as they swamped their host, 56-21.

Jumping into a 11 to five first quarter advantage, Greencastle increased it to 23-8 at the half and coasted to their seventh victory in eight starts.

The next action for the junior high chargers will be January 19, when they journey to Brazil.

Trailing 18 to 14 going into the final four matches, Slaughter, Conrad, Luzar and Sutherland added four straight pins to assure the Cubs' victory.

For his outstanding performance, Gordon Sutherland, was named wrestler of the week. On Thursday, the Cubs will travel to Crawfordsville to meet the undefeated Athenians.

GHS Wrestlers Take 3rd Victory At Mooresville

The Greencastle Tiger Cubs defeated the Mooresville wrestling squad 34-18 Thursday to pick up their third victory to go with two losses.

Freshman Ted Brewer opened the scoring with an impressive 4-0 decision over Mooresville's Whitaker. After close losses by Ricketts and Burton, Dave Moore came through with a 7-1 decision to aid the Tigers' cause.

Sophomore Dusty Brewster pinned his opponent early in the first round. Fred Coan lost a hard fought match to undefeated O'Dell of Mooresville. Senior Walgamuth was the next Cub scorer with a 10-4 decision. Jim Gorton, replacing injured David Robbins, lost to Haultzlow.

PUBLIC SALE

SATURDAY, JANUARY 14, 1967

At my farm South of North Salem on State Road 75 to Road 500 or also known as the Hughes road on what is known as the McClellan Park Farm (1/2 mile East of the Putnam-Hendricks County Line Road beginning at 11:00 A.M. the following:

CATTLE: 18 head of Black Angus cattle. 2 cows with calves and 10 head to start calving in March and the balance to calve later. These are good quality cattle. One registered Angus bull, 3 good heifer calves.

IMPLEMENTS: 2 cattle oilers, one face oiler and one post type oiler. One new Pam Line cattle waterer, never been used. One cattle hay rack. One Ford Rotary two blade mounted mower, just used one season. One Ford mounted disc, new only used in garden spots 6 ft. One Ford lift boom, one good rear mounted post digger, one nearly new heavy duty rear mounted scoop, one power tractor seeder, one sub soiler, One Massey Ferguson 3 bottom tractor, A L P gas burner, this tractor is in good condition with double hydraulic system and on good rubber, this tractor has never been used very much. Some fence posts, fencing and fencing equipment. One rear mounted heavy duty grader blade. One McCulloch chain saw, nearly new, 18 inch. One power sprayer, one garden tractor, one pressure water tank, pump and motor. One good Air compressor, one heavy duty grinder, one 10 inch metal cutting lathe, one 14 inch drill press, one skill portable grinder, one 7 1/2 inch electric saw, 3 electric drills from 3/8 inch to 1 1/2 inch. One set of 5 K. socket wrenches, one set of end wrenches from 3/8 to 1 1/2 inch. One cutting and welding torch, one lot of extension cords, odd wrenches and many other good miscellaneous property. 300 holes, more or less, of nice alfalfa hay.

TRUCK: 1963 F. C. Jeep 170-1 ton dual wheels with a Marsh hoist, Omaha combination grain bed and stock rack and a front mounted winch. 4 wheel drive, throw-out hubs. This Jeep is in A-1 condition.

You are welcome to inspect this property before sale date.

America's Farmers~ Providers of Plenty

In 1967 the Federal Land Bank System will observe the 50th Anniversary of its service to agriculture and will dedicate the observance to "America's Farmers—Providers of Plenty".

The System is proud of its record of service to an industry which has made more progress in the last 50 years than in the entire history of farming prior to that time.

Agriculture's contributions to the growth and prosperity of the nation should be fully understood and appreciated by all people. It is the hope of the Federal Land Banks and Federal Land Bank Associations that the 50th Anniversary program will help to portray a true and lasting picture of agriculture, our most basic and important industry.

THE FEDERAL LAND BANK OF LOUISVILLE

Handcrafts' Resurgence Takes On Historic Note

By ROBERTA ROESCH

"I personally believe in women who are active," says Mary Ann Beinecke of New York and Nantucket. "And my own way to follow this credo is to create things with my hands."

By anybody's standards, Mrs. Beinecke—a guiding beacon in the present resurgence of handicrafts taking place on the historic island of Nantucket—has been producing things with her hands for as long as she can remember.

Started In Childhood

"I began by embroidering when I was a little girl," she said. "In college, I majored in art and started to do hand-weaving. When I was married and had a family, I studied, worked on hand-weaving at home and visited mills whenever I could."

Later when Mary Ann's husband, Walter Beinecke Jr., a trustee of the Nantucket Historical Trust, became interested in the restoration of the town's Jared Coffin House, the ex-

perience in handicrafts she had accrued wove itself into real opportunity.

"While the mansion was being restored," she explained, "it soon became obvious that the fabrics that were needed for the interior were not available commercially."

To overcome this hurdle, Mrs. Beinecke decided to use her knowledge of weaving to teach the craft to untrained islanders so that—in addition to providing needed fabrics for the Jared Coffin House—they could also learn a new way to earn a living during the winter months.

Trained And Organized

So with an associate designer, she started training the weavers and organized Nantucket Looms to handle the work. Later the looms grew into the present Cloth Co. where fabrics are woven, designed and sold under the direction of a textile designing team that also handles the hand-printing of the fabrics.

"As the newly-trained weavers started to produce beautiful and decorative cloth, I began to realize that Nantucket was where the handicrafts I had been doing all my life belonged," said Mrs. Beinecke. "I could see it as a thriving center for hand-weaving, hand-textile printing and fine embroidery."

With this as a vision and goal, Mrs. Beinecke became a

Fabric For The Restoration Job Had To Be Woven By Hand

prime organizer behind the extensive handicraft projects now going on on the island. To start things going and growing, she involved herself in study and research, obtained experts to teach the women on the island who are now instructors, organized classes and collected personalities for seminars and lectures.

Currently she is busy planning the details of a school where women can continue their education in new concepts of embroidery and creative handicrafts.

Home Study Course

In connection with the school, she is also busy setting up a home study course which will provide women all over the country with that same teaching program that's available at Nantucket.

Marion Sears, Trustee

"There is a growing need and interest for this sort of thing," said this attractive and creative woman, who believes in women who are active.

"I also feel," she said, "that every woman who sets her mind to it can have the satisfaction of creating beautiful objects professionally or for personal satisfaction. There's room for everybody to be active in this way."

NOW!

We Mean That
Brand New Car!

Get that new car you've been wanting . . . get it now! There's no need to put it off any longer when we can put you behind the wheel with a quick, convenient Auto Loan.

Come in, talk to us about it . . . you'll see how easy it is to get what it takes with our prompt, courteous service. And we'll arrange an easy monthly payment plan tailored to fit your income. Come see us soon and walk out to buy the car you want to be driving.

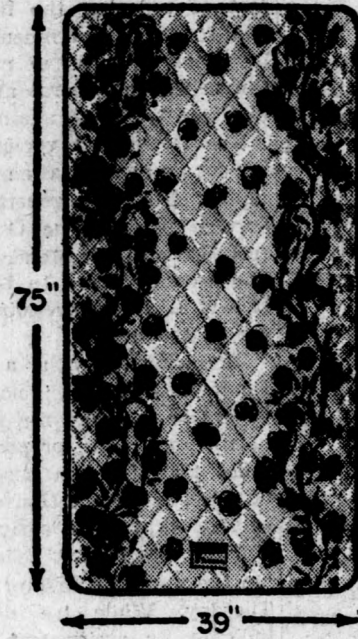

Central
NATIONAL BANK

Greencastle, Indiana

Horace Link & Co. offers Beautyrest mattresses in 6 sizes...

"The Store of Furniture"

It's the largest assortment in town . . . Now you can have the unique construction and superior comfort of Beautyrest . . . in a size that fits your needs.

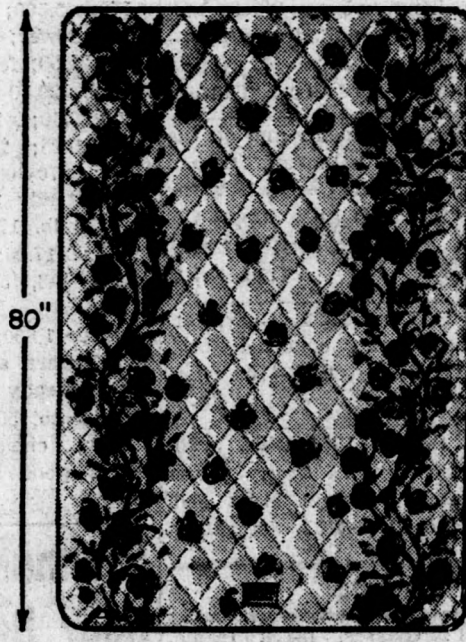

TWIN SIZE. Perfect for the smaller and average size sleeper who wants privacy. . . \$79.50

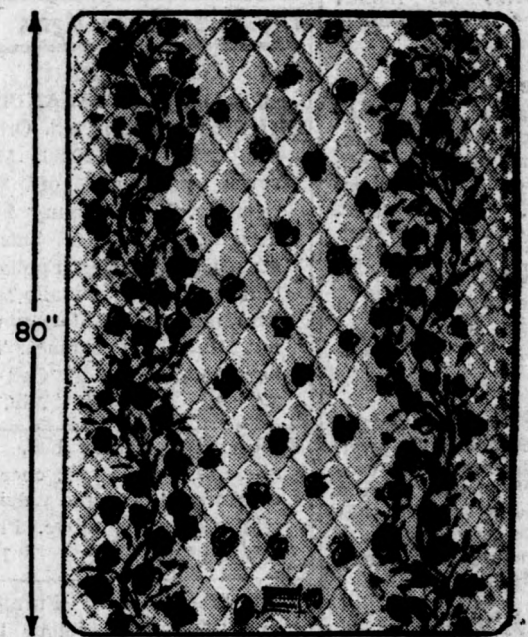

FULL SIZE. The most famous Beautyrest of them all. Sleeps two in single bed comfort for a finer rest every night. . . \$79.50

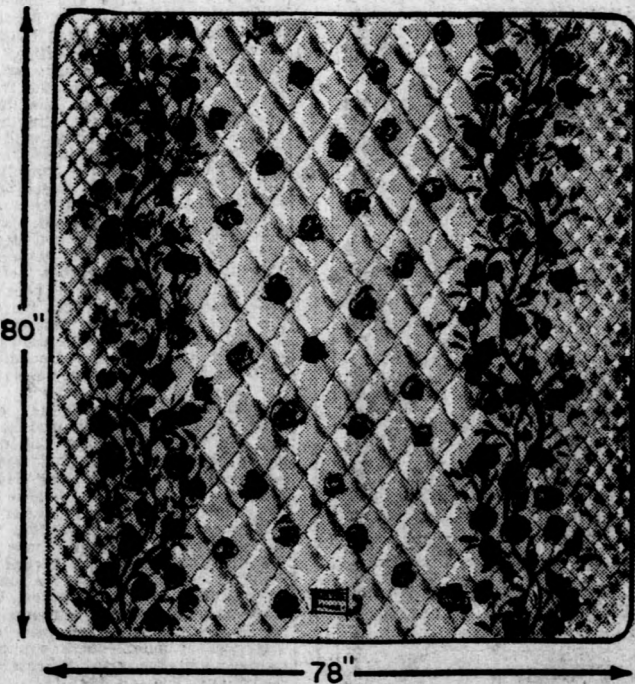

LONG BOY TWIN 5 inches longer than a regular twin size Beautyrest. . . \$99.50

LONG BOY FULL. 5 inches longer than a full size Beautyrest. Big comfort for today's taller sleepers. . . \$99.50

QUEEN SIZE. 5 inches longer and 6 inches wider than full size Beautyrest. Set of mattress and matching boxspring. \$199.50

KING SIZE. Two feet wider and 5 inches longer than full size Beautyrest . . . 54% more sleep area. Set includes mattress and 2 twin-size boxsprings. . . \$299.50

Whether you're tall or short, more than ample or pleasantly petite, you'll find a Beautyrest mattress just right for you. Choose from the six sizes shown here and have any of these comfort-filled Beautyrests in either normal firm or extra firm, in either quilted or tufted models. No matter which of these Beautyrests you select you can be sure of having the buoyant firmness of the independent coil construction as it provides every part of your body with just the right amount of support. So don't wait another day to begin enjoying night after night of sounder, more refreshing sleep.

Beautyrest gives you more comfort . . . more economy than any other mattress!

ORDINARY MATTRESSES have 200 to 300 wired-together springs. Push one down . . . and the other nearby springs sag down too. They can't support body hollows . . . give a "hammock" type of sleep.

BEAUTYREST MATTRESS has over 800 individual springs in full size. Not tied together, each is in separate cloth pocket. Each acts independently to push up under back, give firm support to every part of your body.

BEAUTYREST LASTS LONGER! . . . 3 times longer than ordinary mattresses. Durability tests by the National Consumer Testing Institute have proved this fact time and time again. This is real economy in the long run.

GUARANTEED 15 YEARS because Beautyrest is so durable. Brings the cost down to less than 2c a night. And your Beautyrest guarantee is stated on the label sewn to the mattress . . . it's always with you.

Try a Beautyrest in
Your Own Home
at Our Risk

Sleep on it for 30 nights. If you're not convinced it's the finest mattress you ever owned, your guest trial won't cost a single cent. Come in today, arrange to be our guest for 30 nights of buoyant, heavenly sleeping Full or twin size, comfort on a Beautyrest mattress, made only by Simmons. **\$79.50**

CONVENIENT BUDGET TERMS

Enjoy the comfort of Beautyrest for
as little as \$1.25 per week!
